

INTRODUCING

Lauren

From: Sydney, Australia

Birthday: March 20th

Experience:

I'm studying for a Master's in Primary School Teaching, focusing on supporting students with diverse learning needs. For 2 ½ years, I've taught English to low readers in Sydney and supported autistic children in the classroom. I coordinated an art club for autistic and selectively mute students, which was rewarding. I also taught English and Maths to high school students with behavioural challenges, adapting my methods to their needs. Before teaching, I worked in childcare for three years, specializing in support for low-functioning autistic children. Although I hold a Bachelor's in Design, my passion is in education for special needs, and I'm eager to make a positive impact.

Personal Message:

I often reflect on this quote from Dr. Seuss in the essence of my teaching in the classroom: "The more that you read, the more things you will know. The more that you learn, the more places you'll go."
